RE: **B243 Belform Insulation Ltd.  
London, Ontario**

25/11/97 e7 **PVC Pipe Fitting Covers and Insulation  
system**

This is in reference to your letter dated November 21, 1997, concerning the aforementioned materials for which you have requested acceptance for use in federally registered food plants

Based on the available information, no objection would be taken to the use of the above materials for installation in registered food plants, provided that all seams and joints of the PVC covering are sealed to provide an impervious surface.

This acceptance will depend upon its continued acceptability to all concerned. Should any changes occur in the chemical formulation of the aforementioned materials, then this acceptance will be considered NULL and VOID.
